

DNA REGISTRY

This Certificate displays a genetic comparison of the canines listed which resulted in a non-certified determination from BioPet Laboratories due to their strict accreditation guidelines. However, National Sporting Dog, Inc. strongly believes that there is enough probability in this comparison to register the dog as being the offspring of the listed sire and dam.

This certificate does not certify or give definitive proof of parentage that is guaranteed by BioPet Laboratories. The certificate shows that NSD has accepted this comparison for registration purposes only and has registered the dog with the listed sire and dam.

NSD PARENTAGE CERTIFICATE

Festus 20/20 Gossip

DOB: 08/07/2023

SEX: F

PIN: NSD24-006-363

DNA #: DN0808435
